Project report template

Introduction:

The "Creating Dynamic Resumes/CVs using Canva" project aims to develop a comprehensive guide and toolkit for crafting visually appealing and impactful resumes/CVs using the popular graphic design tool, Canva. In today's competitive job market, having a well-designed and professional-looking resume/CV can significantly enhance an applicant's chances of standing out to potential employers.

We learnt how to create a perfect resume.

Problem definition and design thinking:

Says

What have we heard them say?
What can we imagine them saying?

to land an interviewee in an interview

made to match employer's needs

it should be brief

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

shows candidate's skills

shows academic details and experience

reflects qualification for a specific job

designing a resume/cv

Type your paragraph...

provide job seekers a valuable job

accurately reflect your background

your resume should be literally you

it helps to introduce myself

it is a document that summarizes my skills

it shoes my employement history

Does

What behavior have we observed?
What can we imagine them doing?

See an example

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?

Advantages and disadvantages:

We learnt how to use applications like canva and to create

Resume by our own.

This process is not a piece of cake for everyone accessing it.

Applications:

Creating resume will help in finding better jobs.

Effective resumes create good impressions.

Conclusion:

First of all,we learnt teamwork. This gave the opportunity on creating

Our own resumes. We created empathy map, brainstorming and we created a resume. We also uploaded all of them with teamwork. This process enriched our knowledge.
